

# LUBRICATION ROUTE TASK MANAGEMENT

RELIABILITY SOLUTIONS: Optimization & Improvement

It takes real discipline to schedule, execute and close out your maintenance or lubrication tasks on time. Fluid Life offers a concrete solution. myLab™ is an application that effectively and conveniently manages your daily maintenance and lubrication tasks.

Using our myLab™ portal, Fluid Life's Reliability team can provide you with our **Lubrication Route Task Management** turn-key solution:

- Populate asset lists, equipment tasks, PM tasks, work orders and routes into myLab™
- Review KPI metrics
- Provide role-specific training on myLab™

## WHAT IS INVOLVED?

**Step 1:** All relevant information for maintenance and lubrication task scheduling will be gathered. Sources may include a sample point audit, lubrication survey or information directly captured from your site. Fluid Life will upload this data into myLab™.

**Step 2:** Fluid Life will confirm with you the configuration of specific routes and tasks in myLab™.

**Step 3:** Fluid Life will provide you with role-specific training on tasks, routes, work orders and dashboards within myLab™.

## WHY FLUID LIFE?

We're a company that's All Ways Reliable.

At Fluid Life, not only do we have in-house labs for testing, we also offer comprehensive reliability services. Fluid Life has the expertise to help you achieve a higher level of reliability.
