

SCORECARD

RELIABILITY SOLUTIONS: Benchmarking & Audits

Fluid Life leverages our team of reliability experts to identify and document gaps within your lubrication process. This benchmarking exercise allows us to generate a prioritized action plan to address shortcomings and implement industry best practices.

ELEMENTS REVIEWED

- Lubricant standards, consolidation and procurement
- Lubrication program objectives and indicators
- Lubrication and re-lubrication practices
- Lubrication program management
- Leakage control and safe lubricant handling practices
- Storage and handling
- Contamination control
- Oil sampling techniques
- Oil analysis
- Continuous improvement
- Training and certification
- Procedures and guidelines

WHAT IS INVOLVED?

Step 1: Identification – The process includes staff interviews, review of mechanical assets and discussion of compliance to maintenance practices and procedures.

Step 2: Documentation – Offsite report generation including recommendations and a prioritized action plan.

Step 3: Solution – Presentation of the final report to key stakeholders.

WHY FLUID LIFE?

We're a company that's All Ways Reliable. From analysis and evaluation to planning and strategy, Fluid Life has the expertise to help you achieve a higher level of reliability.

- Outstanding team of lubrication and reliability experts
- Well defined process designed to implement industry best practices
